OMKAR ASHOK GURAV

Pune, Maharashtra, India • +91 8329650472 • guravyash649@gmail.com • **linkedin.com/in/omkar-gurav-a494b7224** • **github.com/OmkarGurav21**

PROFESSIONAL SUMMARY

SDET & Automation Test Engineer with 2.5+ years of verified industry experience across enterprise MNC (Cognizant), production web ecosystems, and modular systems architecture. Specialized in designing scalable automated test suites using **Java, Selenium WebDriver, TestNG, and Maven**. Grounded in Object-Oriented Programming (OOP), Data Structures & Algorithms (UC San Diego/HSE), REST API testing with Postman, and cross-browser test frameworks. Proven track record of reducing manual regression overhead by **70–80%**, mitigating defect leakage across 30+ client platforms, and collaborating with cross-functional engineering teams to deliver robust releases.

CORE TECHNICAL SKILLS

Test Automation:	Selenium WebDriver, TestNG, JUnit, Page Object Model (POM), Data-Driven Frameworks, Smoke & Regression Testing
Programming Languages:	Java (Core Java, OOP, Collections Framework, Multithreading basics), Python, JavaScript, SQL
API & Database Testing:	Postman (REST API Verification, JSON Schema Validation, Environment Collections), MySQL, JDBC Connectivity
Build, CI & Utilities:	Maven, Git, GitHub, Jenkins/CI automation basics, Chrome DevTools, JIRA, Bugzilla, Eclipse, IntelliJ IDEA
QA Methodologies:	Agile/Scrum, STLC/SDLC, Cross-Browser UI Verification, Defect Life Cycle Management, Boundary Value Analysis

PROFESSIONAL EXPERIENCE

Founder & Lead QA / Systems Engineer | Garix — **Pune, India | 07/2026 – Present**

- **Architected automated UI and API verification suites** for client web applications (Nayepankh OS, Endless Global Ventures, Brahma Garden), ensuring cross-browser stability and zero defect leaks.
- **Executed comprehensive performance and network audits** via Chrome DevTools and Lighthouse, optimizing asset payloads and critical rendering paths to sustain sub-second load times.

Quality & Web Application Engineer | KWS (Karve Web Solution) — **Pune, India | 12/2024 – 07/2026**

- **Led QA verification and delivery for 30+ production web applications** across healthcare, education, and international clients (Sakura Clinic, Kuwahara Lab, MIS Education).
- **Designed cross-browser and responsive test suites** across Chrome, Firefox, Safari, and mobile viewports, identifying DOM alignment and rendering discrepancies before client handoff.
- **Validated multi-step booking and checkout flows** for custom hotel reservation plugins with WooCommerce/payment gateways, executing boundary-value tests with 0 transaction failures.
- **Mentored 8–10 junior engineers and interns** on code standards, automated testing scripts, test case authoring, and structured QA bug reporting.

Software Test Engineer (QA Automation) | Cognizant — **Pune, India | 02/2023 – 11/2023**

- **Engineered automated web regression test suites** using Selenium WebDriver and TestNG in Java, reducing manual testing effort by **75%** across multi-sprint test releases.
- **Automated complex UI workflows for enterprise clients (including Rediffmail)**, scripting 15+ end-to-end user scenarios covering 50+ dynamic UI elements, multi-window switching, and AJAX waits.
- **Architected automated verification & comparison utility** for student travel insurance systems, parsing and validating 20+ plan options with dynamic sorting and filtering criteria.
- **Conducted smoke and page verification tests** on Cognizant's internal web platforms across 15+ live pages, achieving 100% test scenario accuracy and ensuring seamless production deployment.

TECHNICAL PROJECTS & AUTOMATION FRAMEWORKS

Page Object Model (POM) Automation Test Framework | Java, Selenium, TestNG, Maven — **github.com/OmkarGurav21**

- Designed a modular data-driven test automation framework adhering to Page Object Model design patterns. Integrated TestNG data providers for parameterized test cases, explicit waits for dynamic synchronization, and automated HTML test execution logging.

Enterprise Data & Reservation Application | Java, JavaFX, MySQL, JDBC — **Desktop Architecture**

- Architected a desktop booking system utilizing Java and MySQL. Implemented parameterized queries to eliminate SQL injection vulnerabilities, connection pooling, and strict UI input validation layers.

EDUCATION & CERTIFICATIONS

B.Sc. in Computer Science — Sinhgad College of Science, Pune — **Graduated: 2022 | GPA: 7.75 / 10.0**

Data Structures & Algorithms Specialization — UC San Diego & HSE University — Algorithmic problem-solving & asymptotic complexity

Java Programming Masterclass — Tim Buchalka — Core Java, Collections Framework, OOP Architecture
